Deadline for #132: Send logs out no later than 1/23

I got a list of great files from the Free Radio Network BBS...all kinds neat stuff about pirate radio, shortwave radio mods, phone phreaking, SWBC skeds, frequency lists, etc. The baud rate is 1200-14.4K, no fees. Call (417) 624-1809 for info! I can't wait to check it out when I finally get a 286+ computer!!

Does anyone have good off-air audio from the following stns: VoNite, Hope Radio w/MJ, or other stations? Many thanks to Niel Wolfish for EXC tape! This'll help a ton!...In a related matter, WLIS wants different pirate IS to use for an all-pirate IS pgm. Send tapes to for either to BRS add...

In addition to the CSIC shirts, He Man R shirts are now available via BRS. He Man sez they are bright yello on Manly green. Sizes: XL & only 15 L. Send \$10 + \$2 s&h. Make any checks payable to Andrew Yoder, but everything (printing, mailing, etc) is being done by He Man for these puppies.

Lotsa XInt logs & many contributors this time: 14 contributors from 9 states & 3 countries. Pirate R. Insanity was a smashing success again. Propagation was a bit screwy (ie CSIC skipping me during the daylight), but SO MUCH was on that good sigs kept rollin in. I had a 1000' longwire up @my parents' house, so I pulled in a few tent logs of Euros & the not-so-elusive KIWI. Fun galore!

The Fake Fake R.USA stns are new for this time. I rxd logs as being Fake RUSA or R.USA, but they don't seem to be either. This stuff's getting confusing!

I got a letter today asking if I was going to do the *Pirate Radio Directory* this year. Yeah, it's the same deal as the past 2 years, *but it's gonna be on time this year!!* I'd expect that it'll be available by late Feb or early March. Also, I'll be selling it for a few \$ cheaper than Tiare again, but *I'll send'em out on time this year!!* I'll letcha know more details when I find more out...

PIRATE RADIO BOSTON

QSL

Deadline for #133: Send logs out no later than 2/13 (3-week deadline!)

I got a list of great files from the Free Radio Network BBS...all kinds neat stuff about pirate radio, shortwave radio mods, phone phreaking, SWBC skeds, frequency lists, etc. The baud rate is 1200-14.4K, no fees. Call (417) 624-1809 for info! I can't wait to check it out when I finally get a 286+ computer!!

In addition to the CSIC shirts, He Man R shirts are now available via BRS. He Man sez they are bright yello on Manly green. Sizes: XL & only 15 L. Send \$10 + \$2 s&h. Make any checks payable to Andrew Yoder, but everything (printing, mailing, etc) is being done by He Man for these puppies.

Not very many logs this time. In case you don't know, it's because the FCC was on an enforcement binge last week. One suspected station op had his equipment "arrested"--FCC agents & a Fed marshal came in w/a search warrant & seized all HF equipment. Nothing else happened, tho. No fines, no FCC harassment, etc. So although the lost equipment was a big loss (approx. \$2000 worth seized), at least it was short and there were no fines involved.

The next day, another person was visited and inspite of threats from the agents, they found nothing. This person offered to interview the agents for the ACE, etc. & they didn't seem to appreciate it.

The suspect behind door #3 was not home and the FCC hasn't come back to check him (or his shack) out!

This entire situation was very strange cuz it represents a whole new direction for FCC enforcement. In the past, equipment seizures have always occurred with NALs. Also, the tip-off apparently occurred because someone faxed the FCC a schedule for pirate activity (from the Internet) over Pirate R. Insanity II. *Don't publicize your skeds in public places!* In the visits, no correspondence was taken. However, just by leaving your PSE QSL add in ACE, you are raising the FCC's suspicions abt you.

You might think that this is all, but there's more. Stephen Dunifer was in court on 1/20. The FCC was trying to get a Fed. injunction to stop him from bdcsting. The judge said that she had serious Constitutional concerns about the injunction & she wouldn't grant it to the FCC! At the present, they can't fine him and & they can't make him stop! I dunno if this will have an effect on SW pirating, but it sure has an effect on FM pirate radio! Round 1 goes to Dunifer & hopefully there will be some time before Round 2!

Here's a press release: **NAPRS ceases operation!** Due to the recent FCC actions against several people suspected of operating pirate r. stns, we have decided to halt operations immediately. Any outstanding rpts will, of course, be gladly QSLed. We were in the pirate relay business for the fun of it. Getting knocks on the door has taken the fun away. NAPRS was in operation from 10/15/92 until 1/15/95.

NAPRS achievement awards now available! Suitable for framing, the certificates are issued starting with 10 relays QSLd, then increasing in increments of 5. To qualify, send us a list of the anme of the stations heard via NAPRS, time, date, frequency, and whether the QSL obtained for the relay was from the station itself or from NAPRS. Your application, along with \$1 and 1 \$.32 stamp sent to the home office in Wellsville, NY will get you one of these certificates. Please be sure to spell your name the way you want it on the certificate. FFFR! Richard T. "Dick" Pistek (retired)

Thanks a bunch to Dick Pistek and the NAPRS for relaying all of the interesting programming over the past 2+ years! Good luck in your future endeavors. Also, I best wishes to all of the pirate ops and accused people out there. Thanks also to anyone with enough nerve to keep pirating during this dry season.

I got a list of great files from the Free Radio Network BBS...all kinda neat stuff about pirate radio, shortwave radio mods, phone phreaking, SWBC skeds, frequency lists, etc. The baud rate is 1200-14.4K, no fees. Call (417) 624-1809 for info! I can't wait to check it out when I finally get a 286+ computer!!

In addition to the CSIC shirts, He Man R shirts are now available via BRS. They're bright yellow on Manly green. Sizes: XL & only 15 L. Send \$10 + \$2 s&h. Make any checks payable to Andrew Yoder, but everything (printing, mailing, etc) is being done by He Man for these puppies.

Looks like activity's picking up a bit. I expect that things'll take off again in the next few months (as long as propagation is on our side). I was quite happy to get QSLs from Laser Hot Hits & Jolly Roger Radio Int'l. Both were via the Euro sites. In fact, LHH said that I was the first NA listener to send a rpt for their own tx! JRRI sent a bunch of neat stuff & they said they are interested in trading relays with NA stns. Anyone interested? JRRI, PO Box 39, Waterford, Ireland.

On a more solemn note, I recently rxd a ltr de VoAnarchy. The woman who did the sign on/off announcements & the Suckmaster ad on the VoA recently passed away. She retired last year and moved away. My condolences to Leonard Longwire.

Be sure to tune around 15040 for KMCR!...Anguilla is s'posed to be on 9960 kHz soon, so if yer a SWBC country hunter, be checking this freq constantly!...I saw a few reports on pirates from Ecuador & Columbia in either MT or NASWA, but I don't have 'em here. The Dutch radio magazine FREEMOVE reports recently at their issue 253, that Radio Carolines shortwave transmitter (6295 kHz) placed at Ireland was destroyed by a bomb attack. The bomb attack was not directly turned against the Caroline organisation but against other Irish unofficial radio operators.
Also the magazine reports that Peter Moore bought recently a new 1 kW shortwave transmitter for 3000 pounds and hopes to install the new transmitter on the Irish grounds very soon.

Yoikes! Important message!! I'm behind with my writing again: I'm finishing chapter & doing page proofs on the 2nd Edition of *Pirate R.Sms* (it's s'posed to be ready in July!), trying to finish the "hands on" pirate radio book, am writing a *DSP Factbook* for a transceiver company, and have *Shortwave Listening on the Road: The World Traveler's Guide* to write--all within the next 2+ months. Unfortunately, it's cut-back time again. So, I'm gonna take a break from PiPa. But that's cool, cuz last year I asked Chris Lobdell if he wanted to fill in if need be. Yesterday, I started to realize just how bogged down I was (I'm overly optimistic and stupid!). So, I asked Chris if he'd fill in over April and May. So, the logs for the next issue go to Chris--but it's ok if you forget at any time, cuz I'll fax'em to him.

I dunno how many issues Chris'll do. Cud be as many as 5. But, cuz activity's low, I'll leave it up to him to decide on 2- or 3-week gaps between issues.

Deadline for #136: Send logs out no later than 3/27 to Chris Lobdell: PO Box 146, Stoneham, MA 02180

See ya 'round in June. I'll try to contribute to PiPa!

I got a list of great files from the Free Radio Network BBS...all kinds neat stuff about pirate radio, shortwave radio mods, SWBC skeds, frequency lists, etc. The baud rate is 1200-14.4K, no fees. Call (417) 624-1809 for info!

In addition to the CSIC shirts, He Man R shirts are now available via BRS. They're bright yello on Manly green. Sizes: XL & only 15 L. Send \$10 + \$2 s&h. Make any checks payable to Andrew Yoder, but everything (printing, mailing, etc) is being done by He Man for these puppies.

The 1995 Pirate Radio Directory is finished! It has more stations and a new station listing of broadcasts--more info than ever. I expect that the cost'll be \$12.95 + \$2 shipping from Tiare. I'll have'em for sale this year and I'll send'em out QUICKLY for \$11 + \$2 s&h (save \$2) to N.America. Make out any checks to Andrew Yoder & send it to BRS...

For sale: Drake TR-3 transceiver 300W SSB/? AM with AC supply, many spare tubes, gd condx. New MFJ 986 3-KW antenna tuner only used 3 hrs, list \$280, sale \$200. Nice chrome D-104 mic: \$40. Heavy-duty RG-8 dipole for 6955 kHz: \$35. All for \$400. Contact via: POB 109, BRS, PA 17214

Pirate & SWBC Notes: KMCR's been testing on 15040 kHz not that RFPI has taken over 15050. Be sure to tune around 15040 for KMCR!...Anguilla is s'posed to be on 9960 kHz soon, so if yer a SWBC country hunter, be checking this freq constantly!...I saw a few reports on pirates from Ecuador & Columbia in either MT or NASWA, but I don't have'em here. Maybe I'll remember for next time...

THE SWEDISH PIRATE - RADIO BALTIC INTERNATIONAL RAIDED
On Saturday, March 18th, officials from PTS shut down Radio Baltic International just after a relay of Radio Nord. The details:
10:10 UTC, the op leaves the house to go shopping.
10:15 UTC, the PTS attacks to RBI QTH. (With guns and mortars? Hi! (CL))
The raid took place with two officials from the PTS, some inspectors, and one local policeman. The operator had to help the PTS dismount the transmitter.
Officials had sent the operator a warning letter earlier and had received interference complaints from both England and Holland.
Stations that were planning to be relayed by Radio Baltic will now be handled by the Underground Radio Association.
(Thanks to Jonnny Augustsson of SRS NEWS for this info).

NEXT DEADLINE: May 11, 1995

Hi guys and welcome to another Pirate Pages. Let's see...we have a new station to report on KXXX "Extreme Pirate Radio" and a new maildrop used by Vox America. It is: Box 3913, Schenectady, NY 12303. Anita McCormick checks in with more info on Allan Weiner's new show over WWCN, which is on at 0400 Monday UTC on WWCN 7435 kHz. It won't start with the whole Radio Newyork Intl crew. Al will probably do the first shows himself, and might be joined by Johnny Lightning and Pirate Joe later. Time will tell, I guess.

Don't forget to order your 1995 PIRATE RADIO DIRECTORY direct from Andrew Yoder in BRS for \$13.00 postpaid. I just received mine, and as usual, a superb job was done by both Andy and George. T-SHIRTS: He Man Radio has theirs in L or XL for \$12.00 from Box 109. Any checks should be made out to Andrew Yoder. THE NAPRS has theirs for \$13.00 in size XL only. I just received mine, and it's great. Cash only to Box 452, Wellsville, NY 14895.

RADIO PIRANA INTERNATIONAL has expanded their last broadcasts to include Australia and New Zealand. This is the sked recently faxed to me:

Hello and welcome to another Pirate Pages. The next one, #140 should be my last and then Andy Yoder will be back the helm in Blue Ridge Summit. Thanks for all the kind comments. Eric Suter requested that the date/SIO information come at the front of the log, like Andy does, so that's what we'll do.

I'm going to dispense with the PIRATE RADIO DIRECTORY and T-SHIRT info this time. Just look in #138 if you need that info. So, let's get on to the news:

RADIO PIRANA INTERNATIONAL. According to a FAX recently received from the operator, Jorge Garcia, RPI will continue his tests on 13950 LSB for a few more weeks. I guess his departure to South America has been delayed. The updated schedule is 0500-0700 to Australia/NZ and 1900-2000 to North America, 2000-2100 to South America on Sunday only. William Hurt from ALTERED STATES RADIO faxed us some info concerning a contest for those who write in after hearing his next show. The prize will be the X-FILES COMIC BOOK #1. MICHAEL GOETSCH DIES AT AGE 26. This is the tragic news received from George Zeller. Also known as Pirate Mike of Radio Albatross International which was heard over R. Copan in Honduras, he died on May 11th in his home town of Cleveland, Ohio. Mike was one of ACE's youngest members when he joined in the early '80s and had his own pirate station, Radio Audibon International which was written up in PopCom in recent months. Mike was responsible for mailing out those long awaited ALLIANCE FOR FREE RADIO QSLs earlier this year as well. He will be missed.

Many thanks to Chris Lobdell for the EXCELLENT job w/the last 5 issues of PiPa! I really appreciated all of the work and I'm sure that everyone in PiPa does, too. The time gave me a chance to get a few projects mostly finished (it'd be too easy for me to just finish everything!). Aside from other stuff, I'll be insulating the upstairs of our house and finishing a room in the basement. These big house projects always make me a bit tense--pirate listening's alot easier!

I received the *Pirate R. Directories* last Fri. & sent'em out same day, so ya subbers shud have'em by now.

Gd turnout this time (I'm surprised after the last break!). Guess every1 knows I haven't quit the hobby! He Man wasn't even lamenting the "death" of PiPa this time...hi hi. Thanks much for yer support!

If yer into computers, too, check out Jihad DX on Compuserve & Internet. It's like an on-line version of Fine Tuning or Numero Uno. Really good stuff--even some pirate logs, courtesy of Chris Lobdell. Many thanks to Anita McCormick for the disk copy of 1 of the issues. Another on-liner is SRS News--more really gd stuff. When I get a gd computer, I plan to have more PiPa on line & I also hope to offer fax subs. If it all works out, the info shud flow SUPERFAST!

Rockwell Collins is selling their "PropMan" propagation software for \$49 and change, plus \$2 shipping. The number to order one is (800) 321-2233 from the USA or (319) 395-5100 otherwise. I bought one through the mail and have run it for abt 2 wks. It's very interesting. It runs MUF, LUF, best freq, and projected signal strengths on a 24 hour basis between any two points in the world. Many parameters are adjustable incl xmitter power, tx and rx antenna gain, sunspot number, antenna elevation above terrain, type of signal (digital or analog audio), high and low freq limit, etc. You can load in any 22 freqs, and it prints out a bar graph of expected signal strengths at any time on all the freqs. Nice tables and a MUF/LUF multi-colored graph by freq and time are generated. This is a vry interesting piece of software, and I have been running it on various presumed pirate paths to my house, as well as various other possibilities such as Tristan and Chiapas Libre. Be advised that the software ran vry slowly, taking 23 minutes for an analysis on my 33 MHz 486SX computer with no math coprocessor. So, I invested in an upgrade of a 66 MHz 486DX processor with floating point math. The analyses now run less than 90 seconds. — GEORGE ZELLER

Dline for #148: Send logs no later than 9/18

I've had some questions abt PiPa subs: The number on the mailing label is the last issue for your sub. So, if the labels reads: *Jay Bell 143*, that means that this issue (#143) is the last in your sub. If you have any problems with your sub, etc., drop me a note or 2. I try to be accomodating, when I can remember/find your notes!

I've had some questions abt PiPa subs: The number on the mailing label is the last issue for your sub. So, if the labels reads: *Jay Bell 143*, that means that this issue (#143) is the last in your sub. If you have any problems with your sub, etc., drop me a note or 2. I try to be accomodating, when I can remember/find your notes!

Dline for #150: Send logs no later than 11/6

Vry high participation this time! Gettin on-line logs's helped alot. In case yer wondering, I've been adding some logs from non PiPa members. The logs're easy to pull off the boards, so I do it (unless I'd get a complaint from that person). Also, I've been putting up PiPa on the Internet, ACE BBS, & FRN BBS, so there's getting to be a grey area between what a member is & isn't. Either way, I just wanna get pirate logs out to folks fast & cheap...the Internet response is really good, so I'll keep posting.--AY

The 2nd edition of *Pirate Radio Stations* should be out, according to HighText, this week. It's 320 pgs w/98 or so pics & an audio CD w/lotsa pirate station audio clips (I'm not sure how long they are or how they've been edited down). The cost is \$29.95 + \$4 S&H. However, I'm planning to sell some copies to *PiPa* members only for \$27 (S&H included). I doubt that I'll sell'em to the general public, so if ya were gonna buy the book anyway & ya subscribe to *PiPa*, this'll save ya \$7. As always, make any checks or MOs payable to: Andrew Yoder. I really hope ya'll like the book lots.

NEWS:

R.PANDORA now uses the following address: R.Pandora, 40 Dalehead, Camden, London NW1 2SL, England. By the way, it's the old BBMS address.

British R.ZODIAC INTERNATIONAL and German R.TITANIC made some US tests this weekend. Unfortunately conditions were poor and we don't know if anyone succeeded.

German mystery jamming station BLACK BASTARD R.(probably the same OP like "GREENVOX") made himself disliked because of disturbing all those QSOs this and the past weeks on 48 metres. He is using a powerful LSB mode HAM TXer and we have now idea about the location to shut his station down!!

SAD NEWS FROM R. EAST COAST COMMERCIAL:

Norman Nelson, operator of the famous R. EAST COAST COMMERCIAL, passed away on Wednesday evening, 11/ember 22nd! Norman became only 49 years old! It's a big shock for all the Free Radio enthusiasts! Norman has been involved in Free Radio for over 30 years & started RECC in 1980! The station became very popular since then especially w/the very informative monthly DX report run by another fame, Neil West! (Source: Britain R.International)

On November 14th LASER HOT HITS & R. GEMINI made a joint bdest on 6220 kHz until 11.58 close down! Both operators used the same studio & letters should be sent to the LHH maildrop which is of course the same as for GEMINI, P.O.Box 293, Merlin, Ontario N0P 1W0, Canada.

R. BRIGITTE informed all listeners that from 1996 onwards they will be on the air each Monday, Wednesday & Friday too!

R. BENELUX & CRAZY WAVE R. used 6245 & 6260 in parallel this sunday & the sigs were xint! The modulation of the 6260 txer was a bit dull due to connexion circumstances, the 6245 one was superb!

Any of ya interested (hardcopy PiPa members only) can get *Pirate Radio: The Incredible Saga of America's Unlicensed Radio Stations* (whew!) via me for \$27 (ppd) instead of \$34 via HighText & most everywhere else I've seen. It's over 320 pages & has a CD w/audio clips. I got my butt in gear, I'll even send a cassette w/alot more audio clips than on the CD. I've got a few o/t tapes made & I'm sending 'em out free to folks who bought the book via me. If you got a copy elsewhere, the tape is \$3.

This is the at-least-ya-get-something version of PiPa. We got three feet of snow last weekend & we're in the middle of another massive blizzard--over a foot predicted. If I don't print this out RIGHT NOW, I'll be stranded at work for the weekend! So, this version of PiPa is incomplete--logs from Leclerc, CT; Animal, PA; Rose, VA; Masyga, MN; and others were rxd, but couldn't be included. Vry Sorry!!! Maybe next time'll be less snowy!
